Plant Performance Optimization

NTPC power plants in India

Implementation of PADO in India: orders for 113 units received

PADO is a powerful software bundle especially created for the Indian market. It supports operation engineers in achieving higher availability of power generation at higher efficiency. The maintenance engineers are supported in planning of maintenance activities. It provides performance data which gives the plant management fast overview of the quality of the process in technical and monetary terms. Customers are among others: NTPC, BHEL, Sterlite Energy Services, IL Kota, Shree Cement, KPCL, Mahagenco, GSECL, DVC&Tata Power, TANGEDCO, CSPGCL, MPPGCL, UPRUNL, NPGCPL, RVUN, KBUN, Hinduja and Nabha Power.

Project Facts

Technology	conventional power plants, cement plants
Customers	NTPC, BHEL, Sterlite Energy Services, IL Kota, KPCL, Mahagenco, etc.
Execution of SES services	2001-ongoing
